INFRASYS OPENS DIRECT SUBSIDIARY IN THE COUNTRY LOCATION OF MALAYSIA

Hong Kong; September 23, 2008 - Infrasys International Limited, the leading F&B enterprise solution provider in the world, is pleased to announce the opening of its direct subsidiary in the heart of Kuala Lumpur, Malaysia's fascinating and vibrant city. The office shall be fully operational by October 1st 2008.

Infrasys regional office for South Asia is based in Singapore and the inception of the new facility complements well with the Singapore operations. The company is also eyeing more strategic hubs in other sectors to fuel its expansion plans. Infrasys has seen rapid growth since its inception and with increasing demand from China, India & the Middle East, it is taking a strategic approach to sustain the company's stellar performance beyond 2008. While expanding its presence, Infrasys will continue to grow internationally through its offices in Hong Kong, Singapore, Kuala Lumpur, Beijing, Shanghai, Guangzhou and Shenzhen.

Mr. Norman Lee, Chief Executive Officer of Infrasys comments, "The opening of our office in Kuala Lumpur underscores the importance of the South East Asia market. By establishing a presence, we will not only be able to extend our reach within this sector, but also continue to provide quality service to our valued customers and distribution channels at large. Besides, Malaysia boasts a strong pool of talented IT technical resource and this is in line with our company's philosophy of nurturing local talent in any country where we have a presence."

About Infrasys International Limited

Headquartered in Hong Kong, Infrasys is the leading provider of F&B enterprise solutions in the hospitality market with an extensive distribution network covering Asia Pacific, North America

and the Middle East. Its award winning Gourmate™ enterprise suite of Point-of Sale & Back End Application Solution is widely deployed worldwide by more than 4,000 establishments.

The company's persistent effort & commitment in R&D to offer the best of breed product in the marketplace have been well received by many leading hospitality institutions. InfrasyS prides itself as a company that consistently deliver its commitments by offering multiple solutions for multiple environments, ranging from a single restaurant unit to a comprehensive cluster enterprise environment.
